

VIDEOMAKER DRONE TRAINING PROGRAM

By Calypso Dionis

GOALS

Learn advanced flying techniques to create cinematic videos, understand the videography settings and edit your work using a post-production software.

WHO IS THIS COURSE FOR?

Enthusiastic Beginners
Advanced Drone Operators
Ambitious Filmmakers

REQUIREMENTS

Participants should ideally own and know how to operate a drone.

It is not necessary to own a specific drone model

INFOS AND PRICE

The course will take place in Zurich.

The cost of the course is 350.-CHF and includes 2 hours of drone theory and practice with printable course and 1 hour post-production.

Participants must indicate if they own a drone and which model.

Participants without a drone can contact me directly.

Participants must have an editing program like premiere pro, final cut or movie maker. Contact me for more infos.

WHAT YOU'LL LEARN

Capture cinematic aerials

Learn advanced flying techniques

Understand the video settings

Edit your footage in post-production
